

Collective Worship

Year 1 Autumn 1

Year 1 gathered in collective worship to celebrate God's wonderful creation, thinking about the land, sky, and sea and all the animals that live within them. The children enjoyed imagining how they might help God "create" the world, choosing different creatures and natural features to add and talking about why they are important.

Together, we reflected on the things in our world that we like and love, as well as the things we feel need to change to make it a kinder, safer place for everyone. The children then offered their own prayers and thank-you messages to God, expressing gratitude for the beauty of creation and for the people and gifts in their lives. Their thoughtful responses showed a growing sense of care and responsibility for the world God has given us.
