

## Yr6 Autumn Term 2025 Jesuit Pupil Profile Virtues

### Eloquent and Truthful

At St. Helen's we help our pupils grow by developing in them an eloquent language which they can use to understand and articulate their emotions, beliefs, and questions. They are encouraged by to be truthful in the way they represent themselves and speak about the world.

We practised being eloquent as we presented to our classmates what we believed to be the World's greatest invention ever. We were encouraged to reason our choices, articulating our opinions.

We practiced this skill again when we shared our Electric Celebration project. We represented truthfully the problems we encountered and any feelings of frustration during the challenge and how we overcame them.

### The Falling Asteroids, by Clara, April, Julian and Connor.

 Space day is celebrated on the first Friday of May which in 2026 will be celebrated on the 2nd of May

 We choose space day because when we researched Space day we found it very interesting and wanted to learn more about it

● **Paula Mansfield** The presentation delivered to Ms Sanchez (Converted to PDF) You successfully created an Electric Light Celebration and worked so well as a team this week. You problem solved together and needed very little support, 2RT each for being the most collaborative and independent learners.

## Learned and Wise

Our pupils at St. Helen's are growing to be learned, finding God in all things; and wise in the ways they use their learning for the common good.

On 4<sup>th</sup> December Yr 6 visited the Senedd. Here politicians discuss and try to make decisions for the common good.

We learned about how the Senedd works, about how Members of the Senedd represent people in their constituency. Then we debated our own question about potential changes to the school day timings and the school week.

Year 6 pupils lead the departments of our own Senedd in St. Helen's and try to work for the common good of our school community but also the good of our parish community and the wider community too.
