

DIGITAL COMPETENCE Children's Senedd

This year the children have decided that they would like to be called the 'Digital Guru's' and have designed and voted on their own badge. See below

The importance of digital technology in our modern world cannot be overstated. Developments in these areas have always been drivers of change in society, underpinning innovation and impacting on everyone's lives.

Digital competence refers to the confident usage of the full range of digital technologies for information, communication and basic problem-solving in all aspects of life.

Therefore, this year the digital gurus are committed to the following at St. Helen's:

1. Developing confidence in coding by
 - using a range of plugged and unplugged activities.
 - Using coding equipment and games
 - Introducing Minecraft Education Edition projects and training staff
2. Developing a greater awareness and understanding of digital safety
3. Developing the use of digital devices in lessons and across the curriculum
4. Maintaining appropriate order to our digital devices and review any additional equipment needed
